BLUE BOOK VALUE

Do truck caps raise the resale value of trucks?
YES THEY DO!

Here are numbers we crunched on the Kelley Blue Book website:

A two-year-old full-size truck, 25,000 miles, excellent condition:

Without Cap	With Cap
\$15,505 private party	\$15,910 private party
\$13,725 trade-in	\$14,025 trade-in

So in this case, a truck cap added about \$265-\$305 value to the resale!

FUEL ECONOMY

Do truck caps affect the fuel economy of trucks?*

YES THEY DO!

If the cost of gas was \$3.75 per gallon... and if your truck averaged 15 MPG... and if monthly you drove 1,200 miles.

A 10% gas mileage savings would yield the following:

Your estimated gas mileage increase will be 1.50 MPG, making your new estimated fuel economy 16.50 MPG.	Your estimated dollar savings are:	
	Monthly.....\$ 27.27	5 Years.....\$ 1,636.20
	Annually.....\$ 327.24	10 Years.....\$ 3,272.40
	3 Years.....\$ 981.72	

*Information is based on a study conducted by Western New England College of Mechanical Engineering.
