Outfit for Work
EVERYWHERE YOU WORK
WE’VE GOT YOU COVERED

Regardless of your workload, we have your truck covered in style and utility. Distinct features and adherence to your truck’s size and performance, we stay true to both form and function by providing you with easy access to your tools combined with secure storage options.

Work in style with A.R.E. truck caps and accessories. Outfit your truck with a quality-built cap designed to last the life of your truck.
Get to Work with a COMMERCIAL ALUMINUM CAP

The Right Tool for Your Truck
A.R.E.'s rugged welded frame construction offers years of durable service, no matter what the weather or job. Each unit has weather-sealed doors with gas props, heavy-duty hinges, and automotive-style locks to protect your valuables.

Options
1. **Height** – A.R.E. has four standard heights plus three wedge heights to meet your specific capacity needs. (Height and wedge availability varies by model.)
2. **Rear Doors** – A.R.E. offers many door styles for your rear access needs.
3. **Side Toolboxes** – Toolboxes are made of .036 galvanized steel with a baked white coat or .063 diamond plate, depending on model. The bins can be customized to include dividers and fold-down shelves.
4. **Roof Racks** – A.R.E. offers many different racks to meet your specific hauling needs. Extra cross bar supports are available.
5. **Vapor Barrier Insulation** – Optional acrylic fabric liner provides protection from condensation.

Structure
1. **Baserails** – 0.80” thick T6 aluminum baserails with MIG welded corners provide a strong foundation.
2. **Structural Tubing** – .050” thick T6 aluminum tubing framework with TIG welded joints provides strength and support with minimal weight.
3. **Exterior Skin** – .035” (DCU Series®), .063” (DCU MAX™) or .063” diamond plate (Diamond Edition DCU™) thick aluminum exterior skin for superior structure.
4. **Door Frames** – A.R.E. builds all styles of doors with the same .050” thick wall tubing used in the body frame. All TIG welded joints and continuous hinge alignment and durability.

Finish
1. **Body Colors** – A.R.E. offers our DCU Series® in white, light gray or black and our DCU MAX™ in white. The color is baked enamel finish applied to the aluminum skin at the mill. The color is not meant to provide a match to any OEM truck paint, but is intended to accent the truck's appearance without custom painting.
2. **Custom Axalta® Paint Finishes** – Optional two-stage ChromaPremier® paint is offered in any OEM color code formula. Applied in our downdraft booths and baked on for durability.
3. **Trims** – Edge trims are offered in black or white.

Components
1. **Gas Props** – Our gas props are set to the optimal pressure to assist in lifting and closing each cap door.
2. **Latches and Locks** – All doors are equipped with Strattec® BOLT™ One-Key Technology. The folding T-grip latch handle is durable and provides an easy way to open and close each cap door. A fold-down deadbolt handle is included at the center of each cap door. All latches and locks have 500 hour non-corrosion finish.

Build Your Perfect Commercial Aluminum Cap

1 Choose Your Model

DCU Series (.035")
- Strength and availability for everyday use
- Heavy-duty .035" aluminum skin
- Standard 1/2 rear door
- Standard full length side door
- Available in wedge style
- Galvanized steel toolboxes with baked white coating

DCU MAX (.063")
- Increased strength and availability for the toughest work environments
- Heavy-duty .063" aluminum skin
- Stainless steel strap hinges on double or single full doors
- Galvanized steel toolboxes with baked white coating

NEW DCU MAX (.063")
- Increased strength and availability for the toughest work environments with added style
- Heavy-duty .063" diamond plate aluminum skin
- Stainless steel strap hinges on double or single full doors
- Diamond plate toolboxes

Diamond Edition DCU (.063" Diamond Plate)
- Increased strength and durability for the toughest work environments with added style
- Heavy-duty .063" Diamond Plate aluminum skin
- Stainless steel strap hinges on double or single full doors
- Diamond plate toolboxes

2 Choose a Cap Height

- Choose the appropriate height for your driving environment, accessibility and the amount of overall space you need

3 Choose a Color and Interior Options

- Choose from one of our standard colors or have your cap painted to match the truck manufacturer’s paint code
- Choose from our interior upgrade options based on your needs for added security, strength or insulation
- Choose a roof vent for increased air circulation

4 Choose a Rear Door

- Choose the rear door and window option that provides optimal accessibility and security

5 Choose a Front Window Option

- Choose the front window option based on your security, access and visibility needs

6 E-Lock

- Utilize your truck’s key fob to lock/unlock the cap

Consult your local A.R.E. dealer for more details on options qualifying any of these specifications above.

3DL Series™

Unparalleled Access

A.R.E.’s Commercial Division is expanding its product line with the new 3DL Series™. Available for many of today’s trucks. This tone tonneau cover exemplifies another innovative design from A.R.E. that makes loading and unloading easier for service workers. The 3DL Series™ turns the bed of the truck into an organized and readily accessible tool container that keeps dust and other elements out.

Standard Features

• Two doors on each side
• The entire cover opens effortlessly from the rear of the truck using a hinge system at the front of the cover
• New roller rods for side doors allow for one-hand operation to provide easy access and improved seal
• Painted to match (automotive base-coat/clear-coat)
• Design offers the driver excellent rear visibility from the cab of the truck
• Designed to keep products secure and out of sight
• Patented Palm Handle (black)

Optional Features

• Remote keyless entry
• Rival LED strip lighting technology to illuminate the bed
• J-box toolboxes

Specifications:

• Adds over 4” above the truck bed rail of additional storage space

LSII Series™

#1 Fiberglass Tonneau

The LSII Series™ offers truck specific styling, premium components and a unique lift assist system for user friendly opening and closing. With a sleek, clean appearance, a proven lock/latch system, a dry and out-of-sight storage area for tools and equipment and better rear visibility when backing up, this industry-leading tonneau cover is a best-seller and for good reason. The LSII Series™ gives technicians and supervisors who live in gated communities with vehicle restrictions the ability to take their work trucks home.

Optional Features

• Remote keyless entry
• Rival LED strip lighting technology to illuminate the bed
• J-box toolboxes

Specifications:

• Adds over 4” above the truck bed rail of additional storage space

Install a CargoGlide® in your truck and get your gear and materials out where you need them! CargoGlide offers models that hold 1,000 lbs., 1,500 lbs. or even eliminates the risk of injury for you or your employees. Combined with an A.R.E. Truck Cap or Cover, the CargoGlide allows you to get maximum use out of your truck bed.

Choose Your CargoGlide®

**CargoGlide® 1,000 lbs.**
- 50% of the cargo tray length slides out on short bed trucks and 75% of the cargo tray length slides out on long bed trucks. This means more cargo is fully accessible at all times.
- 3” wide and 4” high extruded 6061-T6 aluminum side rails with a slot style with a laminated surface for strength and durability. 22 bearings total, 4 full complement permanently sealed ball bearings, 8 side thrust and 2 powerful needle bearings provide dependable lasting support for the cargo you haul in your CargoGlide.
- Non-adjustable aluminum tie-down channels with 8” high side extensions on the first 4’ of the slide at the cab end helps contain more cargo.
- Powder coated industrial 4” high extruded 6061-T6 thick anodized aluminum side rails with a slot style with an adjustable tie down track around all 3 sides, and includes 4 adjustable marine grade tie down eyebolts to make securing cargo easy and versatile.
- Adjustable aluminum tie-down channels with 8” high side extensions on the first 4’ of the slide at the cab end helps contain more cargo.
- Top rubber mat drawer interior
- Top rubber mat
- Folding T-handle lock
- No-drill turn buckle installation
- Dividers (front to back and side to side) · Each drawer holds up to 250 lbs.
- Approximate height: 10.5–12.5” based on truck model
- Approximate length: 46–94”+ based on bed length
- Approximate width: 39–48” based on bed width
- Limited lifetime warranty – see your local retailer or www.truckVault.com for complete warranty information
- Additional Accessories
